My father used to say,

"Nickels, Dimes and Quarters make Dollars." This wise phrase reminds me that small savings can add up to significant amounts over time. " It's not about how much money you make but how much you can keep." To build a successful business, my father advised me to "expand and scale out like Los Angeles, rather than up like New York. Instead focus on broadening the business horizons while maintaining the core values of what we do best."

He also reminded me to "stay true to our expertise, as we have been providing required state disability, paid family leave, and ancillary employee benefits since 1976. " His words of wisdom have always inspired me to stay grounded and work towards achieving long-term success.
